Profile

Full Stack Developer with 2+ years of professional experience delivering production-grade web applications across e-commerce, finance, and real estate. Strong expertise in MERN stack development, REST API design, authentication, Stripe payments, and admin dashboards. Proficient in TypeScript, Next.js, and GSAP for scalable UI architecture and high-quality frontend experiences. Experienced working with international clients (Dubai, Qatar, Netherlands) and handling complete delivery from planning to deployment.

Professional Experience

09/2025 – Present
Thrissur, India

Hackite Infotech

MERN Stack Developer

- Developed full-stack applications with secure authentication and scalable backend architecture.
- Built and maintained REST APIs for production systems using Express.js and MongoDB.
- Improved UI performance by optimizing component rendering and API payload structure.
- Collaborated with cross-functional teams to deliver responsive UI aligned with business requirements.
- Supported deployment workflows and ensured smooth production releases.

10/2024 – 08/2025

Freelance — Full Stack MERN Developer

Remote

- Delivered multiple end-to-end web applications for international clients in Dubai, Qatar, and Netherlands.
- Built admin panels, dashboards, and scalable backend APIs with secure authentication.
- Worked directly with clients to gather requirements, propose technical solutions, and deliver production deployments.
- Managed full lifecycle including development, testing, bug fixing, and post-launch support.

04/2024 – 09/2024
Cochin, India

Soften Technologies

Soften Technologies — Junior MERN Stack Developer (React.js)

- Built reusable React UI components and integrated backend REST APIs.
- Assisted in debugging and improving performance of existing modules.
- Contributed to frontend scalability by improving component reusability and structure.

EDUCATION

08/2020 – 03/2023 Thrissur, India	Bachelor's of Computer Application <i>MET'S College of advanced studies</i> University of Calicut
07/2018 – 03/2020 Thrissur, India	Higher Secondary School <i>Government Fisheries Higher Secondary School</i> Kerala State Board of Examination
03/2018 Thrissur, India	Secondary school leaving certificate <i>Umariyya public school</i> Affiliated to Central Board of Secondary Education

COURSES

10/2023 – 03/2024 Cochin, India	MERN Stack Development <i>Soften Technologies</i> Successfully completed training program in MERN STACK Development
------------------------------------	--

Projects

10/2025 – 12/2025	Blush Flowers – E-Commerce Flower Shop (Abu Dhabi)  <i>Live: https://blushflowers.ae/</i> Developed a full-stack e-commerce web application for an online flower and gift store, enabling seamless product management, order processing, and secure customer transactions. Key Features: • Built a dynamic product management system with categories such as bouquets, cakes, chocolates, plants, and combo deals, including stock and price control productSchema • Implemented occasion-based product filtering (Valentine's Day, Eid, National Day, Birthdays, etc.) for improved user experience • Designed an admin panel for managing products, images, add-ons, and inventory in real time • Integrated secure authentication using JWT stored in HTTP-only cookies • Implemented online payment processing with Stripe, including webhook handling for order verification • Enabled image uploads and optimization using Cloudinary • Configured CORS and cookie-based sessions to support multi-domain frontend and admin applications • Developed RESTful APIs for product, admin, and order management with proper error handling and validation Technologies Used: • Frontend: React.js, HTML5, CSS3, JavaScript • Backend: Node.js, Express.js • Database: MongoDB, Mongoose • Payments: Stripe (Webhooks & Session-based checkout) • Cloud & Storage: Cloudinary • Authentication: JWT, Cookies • Deployment: Vercel (Frontend), VPS / Render (Backend)
10/2024 – 12/2024	Clove International (Freelance Project)  <i>Built a money investment platform for a Dubai-based company, allowing users to invest and earn returns based on selected plans.</i> Features include:

- A user-friendly dashboard displaying active plans, returns, and withdrawal options.
 - Secure payment and withdrawal functionality integrated with robust authentication.
 - Detailed investment management, offering multiple plan options tailored to user preferences.
 - Additional settings and tools to enhance user engagement and experience.
- Technologies Used:
- React.js, Node.js, Express.js, MongoDB, JWT Authentication, GitHub (repository management), Vercel (deployment).

SKILLS

React.js | Next.js | TypeScript | Node.js | Express.js | Tailwind CSS |
JavaScript (ES6+) | HTML5 | CSS3 | GSAP | Responsive UI | MongoDB | MySQL |
RESTful APIs | JWT Authentication | Git | GitHub | Full Stack Development |
API Design | Secure Authentication | Scalable Architecture |
Performance Optimization | Stripe (Checkout + Webhooks) | Tabby

ADDITIONAL EXPERIENCE

Next.js + TypeScript + GSAP (2 years)

- Built scalable frontend pages using Next.js (SSR/CSR) and TypeScript.
- Created smooth UI animations and interactive landing pages using GSAP.
- Improved maintainability using typed props, reusable UI patterns, and structured components.
